*the ghost and the fairy*

Ancient Shadows is the full-length debut of ethereal gothic singer-songwriter, composer and fantasy illustrator Priscilla Hernández. This album brings you a world of fantasy: dark fairy tales, romantic ghost stories, and hypnagogic hallucinations that dwell in the boundaries between dream and awareness. Written, arranged and performed by herself accompanied by some remarkable musicians, Ancient Shadows is a collection of evocative poems and melodies. 19 illustrated song-tales that take you to a ride through the haunting and spectral realm she creates with her sorrowful eerie but sensuous music, led by an angelic and silky voice that invites you to shed your own cultivated defences. Wistful, evocative, pure and meaningful. An album that will delight both new age and gothic music lovers.

With almost 2 million internet play streams since 2002, Priscilla's dedicated fan base continues to multiply. After declining a wealth of record deals, including majors, to remain true to the spirit of her music, Priscilla founded YIDNETH, her own record label and publishing company that takes name from her illustrated book project. She also created "Nuevas Músicas", a platform for the promotion of independent artists in Spain. Priscilla's music has been aired in several spanish national television channels, been featured in countless specialized magazines and media and played in radio stations all over the world. She has also collaborated as a songwriter and vocalist in several published cd's and soundtracks and also have performed in some european emerging talent festivals.
